

642210 Power Supply Profile Bracket 42

- Material:** AISI 316
Finish: satin
Application: Indoor and outdoor
Compatibility: ILLUNOX® system 42
Dimensions: See drawing. Distance of the handrail middle to the wall is 75mm.
Description: Power supply bracket especially designed for the ILLUNOX® handrail with 3-point wall mounting with wall flange for an invisible mounting result. The (low voltage!) cable to power the LED strip of the ILLUNOX® handrail can be lead through this bracket. This can be used with the following ILLUNOX® handrails: round 42,4mm (642101), square 40x40mm (642111) and rectangular 60x40mm (642121)
Mounting: To be slid over the ILLUNOX® profile and fixated by fastening the screw. No need to weld. For cable throughput instructions follow the instructions in the ILLUNOX® installation guide. Without wall mounting materials (M8).
Weight: +/- 400g
MOQ: 1
