

648210 Power Supply Profile Bracket 48

- Material:** AISI 316
Finish: satin
Application: Indoor and outdoor
Compatibility: ILLUNOX® system 48
Dimensions: See drawing. Distance of the handrail middle to the wall is 80mm.
Description: Power supply bracket especially designed for the ILLUNOX® handrail with 3-point wall mounting with wall flange for an invisible mounting result. The (low voltage!) cable to power the LED strip of the ILLUNOX® handrail can be lead through this bracket. This bracket can be used with the ILLUNOX® handrail $\varnothing 48,3$ mm (648101).
Mounting: To be slid over the ILLUNOX® profile and fixated by fastening the screw. No welding needed. For cable throughput instructions follow the instructions in the ILLUNOX® installation guide. Without wall mounting materials (M10).
Weight: n.a.
MOQ: 1
